

Environmental Policy for Plastics 2000

Purpose

Plastics 2000 is committed to conducting its operations in an environmentally responsible manner. We recognise the importance of protecting the environment and aim to minimise the environmental impacts of our activities, products, and services wherever reasonably practicable.

This policy outlines our approach to environmental management and continuous improvement and is provided in support of supplier and stakeholder requirements.

Our Commitments

Plastics 2000 commits to:

- Complying with all applicable environmental laws, regulations, and standards relevant to our operations
 - Minimising waste generation and promoting reuse and recycling where possible
 - Using energy, water, and materials efficiently to reduce resource consumption
 - Selecting suppliers and contractors who demonstrate responsible environmental practices where appropriate
 - Preventing pollution and minimising environmental risks associated with our activities
 - Considering environmental impacts when planning and undertaking business activities
-

Waste and Resource Management

We aim to reduce environmental impact through:

- Appropriate segregation and disposal of waste
 - Recycling of paper, packaging, metals, and plastics where facilities exist
 - Responsible handling of any hazardous materials in accordance with legal requirements
 - Avoidance of unnecessary packaging and consumables where practical
-

Energy and Emissions

Plastics 2000 seeks to:

- Use energy-efficient equipment where feasible
 - Avoid unnecessary energy consumption in offices, factories, and worksites
 - Consider environmental performance when replacing major equipment or appliances
-

Awareness and Responsibility

- Environmental responsibility is shared across the business
 - Employees are encouraged to act in an environmentally conscious manner in their daily activities
 - Management supports continuous improvement in environmental performance
-

Continuous Improvement

We are committed to reviewing this policy periodically and improving our environmental practices as our business evolves, taking into account operational needs, technological developments, and stakeholder expectations.

Policy Review

This Environmental Policy is reviewed periodically to ensure it remains relevant and effective.
