Statement of Australian Manufacturing Origin

ABN: 63 628 124 210

Manufacturing Origin & Material Source Declaration

Plastics 2000 Pty Ltd hereby declares that all products manufactured at our facility are produced entirely within Australia. All extrusion, conversion, fabrication, and finishing processes are conducted domestically under our direct operational control.

Plastics 2000 further confirms that the resin used in our manufacturing operations is sourced from both Australian suppliers and approved international suppliers. These raw materials may include a combination of locally produced resin and imported resin, depending on product specifications, regulatory requirements, and supply-chain availability.

Regardless of origin, all raw materials are processed, converted, and manufactured into finished goods exclusively within Australia, ensuring full compliance with Australian manufacturing standards, traceability requirements, and quality-assurance protocols.

This statement is issued for the purpose of supporting compliance documentation, procurement requirements, regulatory submissions, and customer assurance regarding the Australian origin of Plastics 2000 manufactured products.
